Faculty and administrators of each Unit are required to jointly develop written faculty evaluation guidelines (annual evaluation, promotion and tenure, promotion, post-tenure review) describing the evaluation criteria employed in the unit consistent with University criteria and procedures.

--For detailed requirements for these written guidelines, refer to University Rule 12.01.99.M2.

Units should include in their guidelines, the initial and periodic review and approval dates by:

--Faculty Members and Administrators of the Unit

  The guidelines must be developed in consultation with the faculty at large or with a representative faculty committee.

--Dean of Faculties

1. Introduction

The mission of the Texas A&M University Department of Geography is to develop and sustain research and academic programs through which our undergraduate and graduate students are stewards and proponents of the discipline base on a command of geographic knowledge, applications of geospatial technologies and theories, and professional skills in research, teaching and to apply and disseminate the knowledge we develop for the benefit of society. Appropriate evaluation guidelines and reward mechanisms for faculty members to support the mission are essential. This document is designed to provide a means to promote and thus retain faculty members whose excellence makes them beneficial members of the academy, while providing them with stability of employment.

The expectations of the Department of Geography for its faculty are that they develop a scholarly and balanced approach among teaching, research, and service to achieve effectiveness and excellence in their field of endeavor. The nature of scholarly innovation requires both flexibility and freedom, thus, the expectation of applying a single formula for evaluating performance is unattainable. That is, it is neither desirable nor feasible to specify a rigid set of evaluation guidelines. (UR 12.01.99.M2, Section 4.4.2.2) Therefore, this document provides a general set of guidelines and criteria congruent with the mission of the University and the Unit; and such guidelines and criteria are used as indicators of effectiveness and excellence.

This document articulates general Unit guidelines for faculty, annual review, tenure and promotion, promotion, and post-tenure review, consistent with the requirements and guidelines found in the following University documents:

In the event of inadvertent discrepancies between this document and Texas A&M University or Texas A&M University System policies, rules, and procedures, the University or System statements take precedence.
2. Faculty Tracks and Ranks

Definition of faculty ranks and tracks can be found at University Rule 12.01.99.M2 and University Guidelines to Faculty titles. Professor, Associate Professor, and Assistant Professor are appointment titles of either tenured or tenure-track faculty members. Academic Professional Track (APT) appointments are non-tenure track appointments that normally have a primary responsibility for a single area but may also be expected to contribute in one or more of the other areas. Expected contributions shall be outlined in the annual appointment letter for each individual.

APT appointments include:

- **Professor of the Practice, Associate Professor of the Practice, Assistant Professor of the Practice**
  Within the University, these appointments are normally reserved for faculty members who continue to maintain primary employment in a profession outside of academia. In the Department of Geography, Assistant/Associate/Professors of Practice typically have significant and ongoing industry experience. They may mentor graduate students in industry related research, and as such their primary responsibilities include advising graduate students, obtaining funding to support students and student research, and mentoring students towards publications in peer-reviewed journals. Teaching undergraduate and graduate classes, as appropriate to mentor students, is also expected.

- **Research Professor, Research Associate Professor, Research Assistant Professor**
  Faculty in these appointments are required to make significant contributions to scholarly research; they may also teach graduate classes as appropriate to mentor students or contribute to service in the area of research support.

- **Executive Professor**
  These appointments are expected to make significant contributions in the area of teaching, and in the area of service or administration.

- **Senior Professor**
  These appointments are non-tenure track appointment for faculty members who teach but who are not required to make significant contributions in the areas of scholarly research or service. This title is typically reserved for retirees who have been rehired into a non-tenure track position. Expected contributions will vary for each individual.

- **Instructional Professor, Associate Instructional Professor, Assistant Instructional Professor**
  Faculty in these appointments focus on teaching; they may also contribute to research or to departmental service (primarily in the area of education). Expected contributions shall be outlined in the annual appointment letter for each individual. The teaching load for these faculty in the College of Geosciences is typically three courses per semester but may vary depending on other duties assigned.

- **Lecture, Senior Lecturer**
  These appointments are for faculty who teach but who are not required to consistently make significant contributions in the areas of scholarly research or service. The level of effort for each appointment is based on the number of courses/sections taught per year and may vary depending on other duties assigned.

- **Visiting Professor, Visiting Assistant Professor, Visiting Associate Professor, Visiting Lecturer**
  These appointments are limited term appoints that normally have focus on a mixture of teaching and research.
3. **Areas of Faculty Performance** (Reference University Rule 12.01.99.M2, Section 4.4.1)

Decisions on tenure, promotion, and merit compensation will be based upon the faculty member’s performance in the assigned categories of performance (**teaching; research, and service**). Descriptions of faculty expectations in their assigned areas of faculty performance are presented below. Alternate work assignments (such as administration, etc.) may replace one or more areas in certain situations, but only with the written approval of the Department Head and Dean. Faculty with alternate work assignment will be reviewed based on assigned duties (including administrative assignments).

3.1 **Teaching**

Teaching is central to the mission of the College, and effectiveness in teaching is required of all faculty. All faculty members are expected to: 1) contribute to instruction and student development; 2) continuously strive to improve their teaching effectiveness; and 3) promote and diversify the development of the College’s instructional programs. Effectiveness and excellence in teaching affect decisions on merit compensation, tenure, and promotion.

Evaluation of teaching does not lend itself solely to quantitative measurement. Multiple sources of information and methods must be considered when assessing teaching. Student evaluations are required but not sufficient to evaluate teaching. Other measures/sources of information may include: 1) self-evaluation; 2) peer-evaluation; 3) student feedback; and 4) student learning. The criteria for effectiveness that shall be considered in evaluating teaching performance are: (i) coverage of appropriate material in a rigorous manner, (ii) effective classroom presentation, and (iii) reasonable evaluation of the student’s performance. Items (i) and (iii) are generally handled by peer evaluation of appropriate materials, such as class syllabi, notes, and examinations. Some information on these two items may also be obtained from student evaluation. Item (ii) may be evaluated by student evaluations, classroom assessments by senior faculty and alumni surveys.

3.2 **Research, scholarly activity, or creative work:**

Active production of scholarly work is expected and necessary for promotion and tenure. In addition, scholarly work should be appropriate in the context of supporting the mission of the Department. Pursuit of scholarship can be accomplished in teaching, research, or professional activities. A shared characteristic of each of these areas is the production of peer-evaluated work. Scholarly activities are those that result in publications. Publications in highly ranked refereed journals carry the greatest weight. Publications in proceedings of international or national conferences (refereed) rank second, and presentations and publications in regional conferences rank last. In evaluation of publications, emphasis is placed upon the quality of the work.

3.3 **Service**

Service includes service to the Department, the University, and the profession, and must be appropriate in the context of the mission of the Department. Serving as chair of major committees represents a leadership role and contributes to the stature of the Department and College. Typical service activities may include organizing national or international symposia or workshops; serving as a member of boards of international or national symposia, an officer in professional societies, referee or reviewer for funding agencies, professional journals, or textbook publishers; and participating in editorial boards of journals or textbooks and grant review panels.

4. **Indicators of Faculty Excellence and Effectiveness**

The Unit recognizes that there are multiple indicators of various levels of performance. Additionally, performance and their respective indicators will vary over time for any individual at different career stages. This document does not provide a specific formula for evaluating faculty performance. However, it is possible to describe accomplishments that are most likely to lead to career development and to favorable evaluations. In the sections
that follow provide representative indicators of excellence and effectiveness for each performance area, based on discussions with your faculty (examples provided in Appendix I of University Rule 12.01.99.M2).

4.1 Indicators of **Excellence in Teaching** includes, but is not limited to:

- Outstanding teaching performance as evidenced by such measures as peer-evaluation, student satisfaction, and student outcomes.
- Outstanding mentoring of graduate research as indicated by performance, placement, and subsequent development of graduate students.
- Selection for a University or professional society outstanding teacher award.
- Evidence of courses taught at a rigorous and challenging level, with recognized excellence.
- Publication of widely adopted or acclaimed instructional materials.
- Developing a new course that fills an identified need in the curriculum.
- Receiving external grant support for teaching/learning projects.

4.2 Indicators of **Effectiveness in Teaching** includes, but is not limited to:

- Reflective response to peer review.
- Analysis of strengths/weaknesses of course materials and delivery.
- Analysis of student achievement of course objectives.
- Statement of goals for improvement.
- Participation in teaching workshops or other development activities.
- Evidence of student growth over the semester.
- Student performance in current and/or subsequent courses.
- Employer reports of student performance.

4.3 Indicators of **Excellence in Research/Scholarly Activity/Creative Work** includes, but is not limited to:

- Publications in leading refereed journals.
- Receiving major external fellowship or externally funded research award.
- Frequent citation of publications.
- Publication of scholarly book(s) by reputable publisher(s).
- Awards for peer reviewed creative activities.

4.4 Indicators of **Effectiveness in Research/Scholarly Activity/Creative Work** includes, but is not limited to:

- Receiving significant external peer-reviewed funding for research.
- Significant publication and/or funding resulting from collaborative efforts with researchers in other fields where the faculty member occupies a substantial role in research.
- Patents and/or commercialization of research.
- Presentation of invited papers at international and national meetings.

4.5 Indicators of **Excellence in Service** includes, but is not limited to:

- Serving on a major governmental commission, task force, or board.
- Serving an administrative leadership role at Texas A&M University.
- Serving as program chair or in a similar position at a national or international meeting.
- Serving as editor or member of editorial board of a major journal.
- Serving as a member of review panel for national research organization.
- Evidence of excellence in professional service to the local community and public at large.

4.6 Indicators of **Effectiveness in Service** includes, but is not limited to:

- Being an officer in a national or international professional organization.
- Chairing a major standing or ad hoc Texas A&M University committee.
- Organizing national or international symposia or workshops.
- Serving as a referee or reviewer for funding agencies, highly ranked professional journals, or textbook publishers, and
• Serving on editorial boards of journals or textbooks and grant review panels.
• Diligent and conscientious service in departmentally assigned committee work as assessed by the committee chair and department head

5. Criteria for Promotion and/or Tenure

5.1 Evaluation Criteria for Tenured/Tenure Track Faculty

Faculty members should be evaluated for promotion and tenure on accomplishments in each of their areas of faculty performance (teaching, research/scholarly activity/creative work, patient care, and service), with primary emphasis on the quality, significance, and impact of their work. For promotion and/or tenure, in addition to meritorious accomplishments, a high potential for continued excellence is required. Documentation of excellence is best provided by peer review. The criteria for the unit is as follows:

5.1.1 Assistant Professor: Tenure-track faculty members in probationary periods are carefully evaluated each year so that they know, to the maximum extent possible, their level of progress toward tenure. Input material for such evaluations may be faculty members’ curricula vitae, annual performance reports, and other sources of information. While it is recognized that College and Department priorities and faculty performance criteria will likely change over time, faculty members will be kept informed of current expectations and their evaluations conducted in a consistent manner.

5.1.2 Associate Professor: For tenured Associate Professors, the Annual Review should identify progress toward promotion to Full Professor. Specific criteria are as follows:

• Demonstrate an exemplary level of accomplishment as measured against the contributions of others in the field, where those accomplishments are evidenced by outcomes such as publications, grants, and, where applicable, the development of patents and the commercialization of research;
• Display professional conduct conducive to a collegial work environment and standards of professional integrity that will advance the interests of Texas A&M University;
• Expertise in one or more areas germane to the programs of the College of Geosciences;
• Show evidence of successful graduate student or post-doctoral fellow supervision; and
• Demonstrated a commitment to maintaining the level of excellence in teaching (both undergraduate and graduate) and research expected of a tenured faculty member.

5.1.3 Professor: in general, full professors are evaluated from the following three perspectives:

• Demonstrate continued excellence in at least one of three domains - teaching, scholarship, or service - and sustained accomplishment in the other two;
• Show evidence of successful graduate student supervision, and
• Achieve substantial international recognition in research or another form of scholarly activity.

5.2 Evaluation Criteria for Academic Professional Track Faculty (Non-Tenure Track)

For appointment and promotion in the academic professional track (non-tenure track), faculty members should be evaluated in their assigned areas of faculty performance. Faculty with Research in their title will be evaluated with a primary emphasis on the quality and impact of their research/scholarly/creative work activities. For promotion, in addition to meritorious accomplishments, a high potential for continued excellence is expected for Academic Professional Track Faculty.

5.3 Process for P&T
5.3.1 **Timing**
Candidate dossiers are submitted in late spring, after which requests are made for external review letters. The Department P&T committee meets in early fall to evaluate, discuss, and vote on candidates’ achievements and suitability for promotion and/or tenure. Later in the same semester, the College P&T committee meets to evaluate, discuss, and vote on candidates’ achievements and suitability for promotion and/or tenure.

For promotion and tenure to associate professor: According to University regulations and determined by calendar year, tenure consideration would be year of hire + 7 – 2.

For promotion to full professor: Upon meeting University and College goals and expectations for promotion to full professor

5.3.2 **Expectations and Contents for the Promotion and Tenure Dossiers**
Candidate’s impact statement of research, teaching, and service (3 pages)
Candidate’s current cv
Candidate’s grants summary chart
Candidate’s biography
Candidate’s summary data table
List of courses taught by semester and year, including enrollment
External review letters (3 minimum)
Teaching evaluations (student PICA, and peer in-person and materials’ review)
Verification statement

5.3.3 **Committee Composition**
The Promotion and Tenure Committee for associate professors comprises all tenured full professors.

The Promotion and Tenure Committee for assistant professors comprises all tenured full professors and associate professors.

The Promotion Committee for APT faculty consists of the same members as the Promotion and Tenure Committee for the appropriate rank level (Assistant, Associate, Full). APT faculty of higher rank and in the same track as the candidate being considered are also included.

Candidates seeking promotion and/or tenure assemble a three-member committee in consultation with the P&T committee Chair. Each committee member takes responsibility for compiling necessary documents and reviews in the areas of research, teaching, and service. One of the three members is designated Chair, in consultation with the candidate.

5.3.4 **Voting Procedures**
All eligible P&T committee members are able to vote (in favor; against; abstain), both in person and in absentia, confidentially. Votes are reported directly to the department Head.

6. **Annual Review**
Annual reviews of performance are to be conducted in accordance with Section (2.4) of University Rule 12.01.99.M2 (University Statement on Academic Freedom, Responsibility, Tenure, and Promotion).

All University-employed faculty members, whether tenured, tenure-track, or non-tenure track, must have an annual written review, for which the department heads, directors, or supervisors are responsible.
In terms of annual reviews for budgeted joint appointments, department heads, directors, or supervisors will need to collaborate with the heads, directors, or supervisors of the appropriate units to develop accurate reviews, (Section 2.4.4 of University Rule 12.01.99.M2 University Statement on Academic Freedom, Responsibility, Tenure and Promotion).

In the case of budgeted joint appointments, it is recommended that heads, directors, and supervisors collaborate to provide one annual review letter for the faculty member.

In terms of annual reviews for faculty whose area of responsibility is administrative (e.g., associate deans, department heads, or directors), annual reviews will be conducted by their immediate supervisor. For a faculty member with an administrative appointment that has faculty responsibilities such as teaching and/or research, the immediate supervisor is required to solicit feedback from the department head, director, or supervisor regarding the faculty member’s performance in those areas. Faculty with administrative appointments equal to or less than 25% effort are to be evaluated annually by their department head, director, or supervisor with input from the supervisor of the administrative appointment. A faculty member should receive only one evaluation that covers all areas of responsibility.

The Department Head (DH) performs the annual review process in the spring semester of each calendar year for all faculty members. The DH annual review is based on performance during the previous calendar year only. The annual evaluations are separated into three components: teaching, research, and service. Each component can be rated as Outstanding, Exceeds Expectations, Satisfactory, Needs Improvement or Unsatisfactory. An overall rating based on the three categories is normally computed by assigning weights equivalent to the percentage of effort assigned to each category in their annual appointment letter. That a faculty member’s contributions will change over the course of a career is recognized. For tenured & tenure track faculty, the percentage effort allocated to any category will not be 0% except in cases where there is a termed appointment that necessitates changes to the standard appointments. APT faculty will be evaluated based on the percent effort in their annual appointment letter.

An overall unsatisfactory evaluation for tenure-track and tenured faculty is triggered by the criteria outlined in University Rule 12.06.99.M0.01. An annual review in which an unsatisfactory performance is determined shall state the basis for the rating in accordance with the criteria.

6.1 Purpose

- Provide evaluative feedback regarding the faculty member’s performance relative to the expectations and norms for the individual’s faculty position.
- Provide developmental feedback regarding areas where the faculty member’s contributions may be enhanced and/or improved.
- Provide feedback regarding progress toward promotion and/or tenure as relevant.
  - See University Rule 12.01.99.M2. For tenured associate professors, the process should be used to identify the faculty member’s progress toward promotion to professor. For professors and tenured associate professors, the annual review should also be part of the ongoing process of communication between the faculty member and the institution in which both institutional and individual goals and programmatic directions are clarified, the contributions of the faculty member toward meeting those goals are evaluated and the development of the faculty member and the University is enhanced. In all cases, the annual review shall serve as the primary documentation for evaluation of job performance in the areas of assigned responsibility and for merit salary increases.
- Create a sound and logical basis for merit compensation recommendations.
6.2 Focus
The focus of the annual review process will vary by title and rank and the stage of the individual’s career at the time of the review. For tenured faculty, the annual review evaluates continued effective and/or excellent performance, and where relevant, progress toward the next promotion. For tenure-track faculty, the annual review serves as an assessment of progress toward tenure and promotion. For academic professional track faculty (non-tenure track), the annual review evaluates performance and serves as assessment of progress towards retention and/or promotion, as applicable, section 2.4.2 of University Rule 12.01.99.M2 (University Statement on Academic Freedom, Responsibility, Tenure and Promotion).

6.3 Time Period of Review
Annual reviews will focus on the immediately previous calendar year.

6.4 Criteria for Rating Faculty Performance
During an annual evaluation, performance in each of the areas of faculty performance (see Section 4.) will be rated on at least three categories: “Unsatisfactory,” “Meets expectations/Satisfactory,” “Exceeds Expectations.” A unit might decide to use more than three categories and for merit, it is advised that more than three are used. These might include: “Unsatisfactory”, “Needs Improvement”, “Satisfactory”, “Exemplary”, and “Most Meritorious” based on evidence of effectiveness and excellence. Overall performance will also be described using these terms. Individual units may also choose to use more than five categories for rating faculty performance and/or different terms for rating performance.

6.4.1 Performance ratings to be used for annual evaluation of Teaching are:

- **Unsatisfactory** – the absence of significant evidence of effectiveness or excellence in teaching. Examples of Unsatisfactory ratings in teaching include: (1) persistent negative teaching evaluations; (2) regular and unresolved student complaints; (3) indifference to teaching; (4) disorganized presentation of course materials and poor communication of course requirements; (5) persistent lack of progress to degree on the part of students being mentored; (6) unwillingness to mentor students; (7) persistent inattention to university requirements including timely posting of current course syllabi, curricula vitae and student grades; (8) routine refusal to teach courses central to the departmental mission; (9) excessive cancellation of class.

- **Needs Improvement** – minimal evidence of effectiveness in teaching. Individuals receiving this rating may have areas needing improvement in mentorship, success of trainees, or didactic/laboratory and clinical teaching. Examples of Needs Improvement ratings in teaching include: (1) repeated negative teaching evaluations; (2) inattention to university requirements including timely posting of current course syllabi, curricula vitae and student grades; (3) complaints regarding out-of-date or incorrect information; (4) unresolved student complaints.

- **Satisfactory** – appropriate evidence of effectiveness in teaching. Effectiveness can be supported by peer review, student evaluations, and accomplishments of trainees. Satisfactory teaching performance is evidenced through (1) the presentation of accurate, up-to-date-date, well organized information and concepts; (2) demonstrating interest in the course subject and the process of teaching; (3) receiving acceptable or better teaching evaluations; (4) satisfactory resolution of student complaints; (5) timely graduation of and/or achievement of appropriate progress to degree on the part of mentored graduate students; (6) use of technology and active learning methods in the classroom; (7) efforts to implement pedagogy and course content likely to be effective with and supportive of students with diverse backgrounds and learning styles; and/or (8) mentoring students from groups under-represented in the Geosciences.
• **Exceeds Expectations** – strong evidence of both effectiveness and excellence in teaching. Faculty in this category will be outstanding classroom and/or clinical educators as evidenced by peer review, evaluations, awards for education, and trainee accomplishments. Many will contribute to novel educational methodologies and curricular development. Exceeds Expectations ratings in teaching is evidenced through (1) design and successful institution of new courses; (2) extensive implementation of new laboratory exercises; (3) receipt of external grant support for teaching/learning projects; (4) excellent student evaluations or other indications of excellent instruction; (5) authoring of textbooks or other instructional materials; (6) expanding or enhancing opportunities for international studies; (7) selection for a University or professional society outstanding teacher award; (8) placement of graduate students or post-doctoral fellows into significant academic, scholarly or professional position; (9) purposeful mentoring of students from groups under-represented in the Geosciences; and/or (10) successful implementation of innovative pedagogy including course content likely to be effective with and supportive of students with diverse backgrounds and learning styles.

• **Outstanding** – those receiving the Outstanding rating would have all the attributes of an Exceeds Expectations faculty member. In addition, these faculty members would be nationally or internationally recognized as educators through their leadership, receipt of awards, and solicited involvement in educational organizations. Outstanding and Exceeds Expectations ratings in teaching are evidenced through (1) design and successful institution of new courses; (2) extensive implementation of new laboratory exercises; (3) receipt of external grant support for teaching/learning projects; (4) excellent student evaluations or other indications of excellent instruction; (5) authoring of textbooks or other instructional materials; (6) expanding or enhancing opportunities for international studies; (7) selection for a University or professional society outstanding teacher award; (8) placement of graduate students or post-doctoral fellows into significant academic, scholarly or professional position; (9) purposeful mentoring of students from groups under-represented in the Geosciences; and/or (10) successful implementation of innovative pedagogy including course content likely to be effective with and supportive of students with diverse backgrounds and learning styles.

6.4.2 Performance ratings to be used for annual evaluation of **Research/Scholarly Activity/Creative Work** are

• **Unsatisfactory** – the absence of significant evidence of effectiveness in research/scholarly activity. Examples of Unsatisfactory ratings in research include: (1) Lack of publication in peer reviewed journals, chapters in books, edited volumes, monographs, or special papers; (2) inability and/or unwillingness to obtain extramural research support; and/or (3) the absence of other forms of scholarly activity.

• **Needs Improvement** – minimal evidence of effectiveness in research/scholarly activity. Individuals receiving this rating will have limited evidence of research/scholarly impact as supported by, for example, funding, manuscripts, citations, prominent presentations, book chapters, and so forth. Examples of Needs Improvement ratings in research include: (1) limited publication in peer reviewed journals, chapters in books, edited volumes, monographs, or specialpapers; (2) few proposals for extramural research support; and/or (3) limited other scholarly
activity such as attendance at scientific meetings, authorship of review articles or electronic publications.

- **Satisfactory** – strong evidence of **effectiveness** in research/scholarly activity. Effectiveness must be supported by, for example, high quality manuscripts, grants, presentations, citations, and other factors. Satisfactory research performance is evidenced through (1) regular publication in peer reviewed journals, chapters in books, edited volumes, monographs, or special papers; (2) successful pursuit of extramural research support; and/or (3) the performance of other scholarly activities such as attendance at scientific meetings, authorship of review articles, or electronic publications.

- **Exceeds Expectations**– strong evidence of both **effectiveness** and **excellence** in research/scholarly activity. Faculty in this category will be nationally recognized for their research/scholarly activity. Exceeds Expectations research performance may include (1) publication of ground-breaking research; (2) leadership in obtaining funding for large-scale, interdisciplinary, or multiple-investigator projects; (3) receipt of major fellowship or research award; and/or (4) frequent citation of publications.

- **Outstanding** – those receiving the most meritorious rating would have all the attributes of an **exemplary** faculty member. In addition, these faculty members would be nationally or internationally recognized as scholarly leaders through consistent publication in top tier journals, field-changing awards for excellence in scholarship, and election to scientific societies or academies. Outstanding research performance may include (1) publication of ground-breaking research; (2) leadership in obtaining funding for large-scale, interdisciplinary, or multiple-investigator projects; (3) receipt of major fellowship or research award; and/or (4) frequent citation of publications.

6.4.3 Performance ratings to be used for annual evaluation of **Service** are:

- **Unsatisfactory** – the absence of significant evidence of **effectiveness** in service. Examples of Unsatisfactory ratings in service include: (1) failure to attend faculty meetings regularly; (2) refusal to serve on departmental, college or university committees; and/or (3) lack of contributions to departmental, college or university committees on which the faculty member is serving.

- **Needs Improvement** – minimal evidence of **effectiveness** in service. Individuals receiving this rating typically have limited involvement with the respective unit and an absence of extra unit service. Criteria may depend on the rank and stage of the faculty member. Examples of Needs Improvement ratings in service include: (1) minimal contributions to departmental, college and/or university committees; (2) limited participation in professional societies; (3) irregular attendance at faculty meetings and participation in other faculty activities such as those for student and faculty recruitment.

- **Satisfactory** – adequate evidence of **effectiveness** in service. Those in this category will have involvement in local service **appropriate for their career stage and time assignment** and often will have evidence of national service, again, taking into account the career stage and time assignment. Satisfactory service performance is evidenced through (1) regular attendance at faculty meetings and participation in other faculty activities such as student and faculty recruitment; (2) substantive contributions to departmental, college, or university committees; (3) performance of substantive service to the larger scientific community such as through
manuscript and grant reviews or active participation in professional societies; (4) active participation in scientific societies; (5) academic program enhancement that improves the graduate or undergraduate education experience; (6) serving in an administrative role at Texas A&M University; and/or (7) contributions to enhancing or expanding the diversity of faculty, students, and staff.

- **Exceeds Expectations** – strong evidence of both effectiveness and excellence in service. Faculty in this category will successfully engage in impactful local service activities such as chairing committees, partaking in significant administrative duties, and/or leading mentorship and outreach efforts. Prominent national level service in professional organizations would be typical. Exceeds Expectations service activity may include (1) shouldering a large or pivotal service role without reduction in other responsibilities; (2) performance of service to the larger scientific community through leadership in professional societies, (3) editing of journals or membership on advisory boards; (4) serving on a major governmental commission, task force, or board; (5) leadership in enhancing or expanding the diversity of faculty, students, and staff; (6) effective outreach to K-12 community and general public through informal learning and summer programs; and/or (7) communication of applied research results to the general public.

- **Outstanding** – those receiving the most meritorious rating would have all the attributes of an exemplary faculty member. These faculty members would be nationally recognized for service through their leadership, receipt of service awards, and solicited involvement in prominent professional organizations. Outstanding service activity may include (1) shouldering a large or pivotal service role without reduction in other responsibilities; (2) performance of service to the larger scientific community through leadership in professional societies, (3) editing of journals or membership on advisory boards; (4) serving on a major governmental commission, task force, or board; (5) leadership in enhancing or expanding the diversity of faculty, students, and staff; (6) effective outreach to K-12 community and general public through informal learning and summer programs; and/or (7) communication of applied research results to the general public.

6.5 **Required Components**

The annual review must contain the below components in accordance with Section 2.4.5 of University Rule 12.01.99.M2, (University Statement on Academic Freedom, Responsibility, Tenure and Promotion).

6.5.1 **Faculty member’s report of previous activities.**

The exact form of the faculty member’s report of previous activities may vary from department to department within the College, but must include the following:

- The report should be focused on the immediately previous calendar or academic year, and an expanded window (e.g., three years), if that is the unit’s practice, but should allow a faculty member to point out the status of long-term projects and set the context in which annual activities have occurred.
- The report should incorporate teaching, research/scholarly activity/creative work, patient care, and service as appropriate.
- Faculty members should state their short-term and long-term goals and/or objectives.

For examples see Section 2.4.3.3. of University Rule 12.01.99.M2, (University Statement on Academic Freedom, Responsibility, Tenure and Promotion)

6.5.2 **A written document stating the department head’s, program director’s, or supervisor’s evaluation and expectations.**
The department head, director, or supervisor will write an evaluation for the year in a memorandum or in the annual review document transmitted to the faculty member. The faculty member acknowledges receipt by signing a copy of the document and should be allowed to provide written comments for the file if they so choose. A faculty member refusing to sign the acknowledgment of the document will be noted in the file. This memorandum, and/or the annual review and any related documents, will be placed in the faculty member's unit personnel file. Moreover, this memorandum and/or annual review shall also include a statement on expectations for the next year in teaching, research/scholarly activity/creative work, patient care, and service. This memorandum and/or annual review should include an informed judgement by the department head, director, or supervisor of the extent to which the faculty member complies with applicable rules, policies, and procedures.

No faculty member may receive an overall satisfactory rating if they have not complied with all required System and University training programs (System Regulation 33.05.02 Required Employee Training). In cases where a faculty member has been notified of a mandatory training requirement near the time of the end of the evaluation period, they shall be given 30 days to complete the requirement. To satisfy these requirements the following acknowledgements must be added to the “ACKNOWLEDGEMENT” portion of the department head’s, director’s, or supervisor’s written evaluation and the faculty member must initial:

- I acknowledge that I have completed all mandatory Texas A&M University System training.

6.5.3 Meeting between the department head, director, or supervisor and the faculty member.
The department head, director, or supervisor may meet with the faculty member to discuss the written review and expectations for the coming year. In some cases, there may be a need for more frequent meetings at the request of the department head/director/supervisor or faculty member.

6.5.4 Performance Assessment.
In assessing performance, the weights given to teaching, research/scholarly activity/creative work, patient care, and service shall be consistent with the expectations of the individual’s appointment, the annual review, and with the overall contributions of the faculty member to the multiple missions of the Department, College, and University.

6.6 Assessment outcomes that require action
As per University SAP 12.06.99.M0.01 (Post-Tenure Review), the following annual evaluation and periodic peer review ratings require further action:

6.6.1 Unsatisfactory Performance
An overall unsatisfactory rating is defined as being “Unsatisfactory” in any single area of faculty performance: teaching, research/scholarly activity/creative work, service, and other assigned responsibilities (e.g., administration, patient care...), or a rating of “Needs Improvement” in any two areas of faculty performance.

An annual review resulting in an overall “Unsatisfactory” performance shall state the basis for the rating in accordance with the unit established criteria (see Section 7.4.). Each unsatisfactory review shall be reported to the dean. The report to the dean of each “Unsatisfactory” performance evaluation for a tenured faculty member shall be accompanied by a written plan developed by the faculty member and department head, program director, or supervisor, for near-term improvement. If deemed necessary, due to an unsatisfactory annual evaluation, the department head, director, or supervisor may request a “Periodic Peer Review” (see Section 9.2.) of the faculty member. A tenured faculty member who receives an overall annual rating of “Unsatisfactory” for three consecutive annual
reviews or who receives an “Unsatisfactory” periodic peer review (see section 9) shall be subject to a professional development review, as provided for by University SAP 12.06.99.M0.01 (Post-Tenure Review).

6.6.2 Needs Improvement Performance
If a tenured faculty member receives a “Needs Improvement” rating in any single area of faculty performance during the annual evaluation or periodic peer review (see section 9), they must work with their department head, director, or supervisor immediately to develop a plan for near term improvement. For teaching, this plan should take one year or less to complete successfully. In other areas (e.g., research/scholarly activity/creative work), this plan may take up to three years to complete successfully. The rating of “Needs Improvement” can stay as “Needs Improvement” as long as predetermined milestones in the improvement plan are being met, otherwise the rating will be changed to “Unsatisfactory”. The rating of “Needs Improvement” should be changed to “Satisfactory” when pre-determined milestones are met.

6.7 Timeline
The annual review process is set to conclude prior to the beginning of the budgetary process, thereby enabling department heads, directors, or supervisors to assess faculty performance when determining salary merit increases. The Dean of Faculties’ Guidelines for Annual & Midterm Reviews states, “These reviews must be completed before merit raises may be recommended, and never later than June 15 of each year.”

6.8 Complaint procedure if annual review fails to follow published guidelines:
A faculty member who believes that his or her annual review process did not comply with the department published annual review guidelines, or in their absence those published by the college, may file a complaint in writing addressed to the dean of the college with a copy to the Dean of Faculties. The dean of the college will review and decide on the merits of the complaint. The decision of the dean of the college may be appealed to the Dean of Faculties. See section 2.4.3.5 of University SAP 12.01.99.M2.

There is no formal grievance or appeal regarding the substance of an annual review. See section 2.4.3.6 of University SAP 12.01.99.M2

7. Mid-Term Review
In accordance with Section (4.3.5.2.) of University SAP 12.01.99.M2 (University Statement on Academic Freedom, Responsibility, Tenure, and Promotion), it is mandatory that a comprehensive mid-term review for tenure-track faculty subject to a probationary period (of five or more years), be conducted (normally by December of the third year) to determine the progress towards tenure.

7.1 Purpose

- A mid-term review is intended to provide a formative review of tenure-track faculty members near the mid-point of their probationary period.

- This review will familiarize the faculty member with the tenure and promotion process and ensure that the faculty member understands the expectations of those entities that will ultimately be responsible for the tenure and promotion decision.

- This review will ensure the faculty member has a clear understanding of their current status and progress.

- This review should mimic the tenure and promotion review process as closely as possible, including submission of dossier items by the faculty member; however internal letters of recommendation may be solicited by the unit rather than external letters of recommendation. As with the tenure and promotion
process, the mid-term review will include review by the unit’s P&T committee, department head/director/supervisor, the college P&T committee, and dean.

- This review should result in an independent evaluation of the faculty member’s accomplishments and performance in teaching, research/scholarly activity/creative work, patient care, and service to date as well as provide constructive guidance for the remainder of the probationary period.

- This review may take the place of the annual faculty performance review. It is recommended that an annual review be done even in the year when the faculty member goes through a midterm (or tenure) review.

- If a tenure-track faculty member is not progressing adequately toward the requirements for tenure, action not to renew the contract of the individual may be appropriate.

7.2 Process

The mid-term review should be conducted between March of the academic year prior to the target academic year, and December of the target year. For example, if the mid-term review is due during the academic year, the mid-term review may occur anytime between March 2022 and December 2022. See below example for faculty member hired in calendar year 2019.

7.3 Feedback from midterm review

Feedback is required for faculty members going through midterm review. Suggested feedback to the faculty member includes summaries of reports and recommendations for going forward from the dean, department head (supervisor/unit director), and departmental faculty.

8. Post-Tenure Review

In accordance with University SAP 12.06.99.M0.01 (Post-Tenure Review), post-tenure review applies to tenured faculty members and is intended to promote continued academic professional development and enable a faculty member who has fallen below performance norms to pursue a peer-coordinated professional development plan and return to expected levels of productivity. Post-tenure review comprises:

1) Annual performance reviews (see Section 6.) conducted by the department head, director, or supervisor (or individual responsible for conducting the annual evaluation).

2) Periodic review by a committee of peers (see Section 8.2.).

8.1 Purpose

- Assess whether the individual is making a contribution consistent with that expected of a tenured faculty member.

- Provide guidance for continuing and meaningful faculty development.

---

1 Post-Tenure Review might not be applicable to your unit, especially if you do not have tenured faculty members, e.g., TAMUQ.
- Assist faculty to enhance professional skills and goals/objectives.
- Refocus academic and professional efforts, when appropriate.

8.2 **Peer Review Committee**

The Peer Review Committee consists of all faculty of equal or higher rank and tenure status in the department at the time of the review.

8.3 **Process**

8.3.1 Materials to be reviewed by Peer Review Committee:
- Current CV
- Recent Annual Evaluation Forms
- Written or oral summary of the faculty member’s activities in teaching, research, and service.

8.3.2 The Peer Review Committee will review the submitted materials and prepare a written evaluation of the faculty member’s performance, providing an evaluation rating in the categories of assigned responsibilities, as well as an overall evaluation. The criteria for the individual and overall performance ratings follow the criteria established in the unit guidelines and should be consistent with annual evaluations.

8.3.3 If all of the relevant review categories are satisfactory, the faculty member will be subjected to periodic peer review again in six years or fewer, as determined by college/department guidelines, or following three consecutive unsatisfactory annual evaluations by the department head, director, or supervisor, whichever is earlier.

8.3.4 A finding of “Unsatisfactory” performance in any particular category shall state the basis for that finding in accordance with the criteria described in the unit guidelines. An unsatisfactory Periodic Peer Review will trigger the initiation of a Professional Development Review.

8.3.5 A finding of “Needs Improvement” in any two categories shall state the basis for that finding in accordance with the criteria described in the unit guidelines. Such an outcome will also trigger the initiation of a Professional Development Review.

8.3.6 A rating of “Needs Improvement” in a single category must specifically elaborate the deficiencies, in writing, to better inform the immediate development of a near term improvement plan developed in collaboration between the department head, director, or supervisor and the faculty member.

8.3.7 For tenured faculty with budgeted joint appointments, Periodic Peer Review will be conducted as per the post-tenure review guidelines of the unit where the faculty holds the majority of the appointment (ad loc) unless the faculty member requests to be reviewed by both units.² If reviewed only by the primary unit, the department head, director, or supervisor will share the report with the other department head, director, or supervisor of the secondary unit.

8.3.8 **By no later than May 31**, each unit will provide to the dean and the Dean of Faculties, the list of those faculty who underwent Periodic Peer Review, the outcome of the

² It is recommended that faculty who hold budgeted joint appointments complete the post-tenure review in both units.
review, and the year when each tenured faculty last underwent a review. The Peer Review Committee’s written evaluation and the faculty member’s post-tenure review documents will be placed in the faculty member’s departmental personnel file.

8.4 Professional Development Review

A professional development review will be initiated when a tenured faculty member receives three consecutive overall “Unsatisfactory” annual reviews (see Section 7.) or an “Unsatisfactory” Peer Review (see Section 8.2.) or upon request of the faculty member (see Section 8.7). The department head will inform the faculty member that he or she is subject to a Professional Development Review, and of the nature and procedures of the review. A faculty member can be exempted from review upon recommendation of the department head, director, or supervisor and approval of the dean when substantive mitigating, circumstances (e.g., serious illness) exist. For more information on the process of the Professional Development Review see University SAP 12.06.99.M0.01 (Post-Tenure Review). If substantial or chronic deficiencies are identified, the review committee specifically elaborates the deficiencies in writing and a copy is provided to the faculty member, department head, and dean. The faculty member, review committee, and department head/director/supervisor shall then work together to draw up a “Professional Development Plan” (see Section 9.4.) acceptable to the dean.

8.4.1 The purposes of Professional Development Review are to: identify and officially acknowledge substantial or chronic deficits in performance; develop a specific professional development plan by which to remedy deficiencies; and monitor progress toward achievement of the professional development plan.

8.4.2 The Professional Development Review will be conducted by an ad hoc review committee (hereafter referred to as the review committee), unless the faculty member requests that it be conducted by the department head. The three-member ad hoc faculty review committee will be appointed by the dean, in consultation with the department head and faculty member to be reviewed. When appropriate, the committee membership may include faculty from other departments, colleges, or universities.

8.4.2a The unit will describe the process for the composition/selection of the ad hoc review committee, specifically, what “consultation” means.

8.4.3 The faculty member to be reviewed will prepare a review dossier by providing all documents, materials, and statements he or she deems relevant and necessary for the review within one month of notification of Professional Review. All materials submitted by the faculty member are to be included in the dossier. Although review dossiers will differ, the dossier will include at minimum current curriculum vitae, a teaching portfolio, and a statement on current research, scholarship, or creative work.

8.4.4 The department head will add to the dossier any further materials he or she deems necessary or relevant to the review of the faculty member’s academic performance. The faculty member has the right to review and respond in writing to any materials added by the department head with the written response included in the dossier. In addition, the faculty member has the right to add any materials at any time during the review process.

8.4.5 The Professional Development Review will be made in a timely fashion (normally within three months after submission of the dossier). The Professional Development Review will result in one of three possible outcomes:
8.4.5.1 No deficiencies are identified. The faculty member, department head, and dean are so informed in writing, and the outcome of the prior annual review is superseded by the ad hoc committee report.

8.4.5.2 Some deficiencies are identified but are determined not to be substantial or chronic. The review committee specifically elaborates the deficiencies in writing and a copy is provided to the faculty member, the department head, and the dean to better inform the near-term improvement plan of Section 2.4, 4.1.5.3 Substantial or chronic deficiencies are identified. The review committee specifically elaborates the deficiencies in writing and a copy is provided to the faculty member, department head, and dean. The faculty member, review committee, and department head shall then work together to draw up a “Professional Development Plan” (see section 5) acceptable to the dean.

8.5 The Professional Development Plan

The Professional Development Plan shall indicate how specific deficiencies in a faculty member's performance (as measured against stated criteria in the unit guidelines under the provision of this procedure) will be remedied. The plan will be developed with the collaboration among the faculty member, the review committee, the department head, director, or supervisor and the dean, and should reflect the mutual aspirations of the faculty member, the unit, and the college. The plan will be formulated with the assistance of and in consultation with the faculty member. It is the faculty member's obligation to assist in the development of a meaningful and effective plan and to make a good faith effort to implement the plan adopted. For more details on the Professional Development Plan see Section 9 of University SAP 12.06.99.M0.01 (Post-Tenure Review)

8.6 Appeal

If at any point during the procedure the faculty member believes the provisions of the Post-tenure review are being unfairly applied, a grievance can be filed under the provisions of University SAP 12.99.99.M0.01 (Faculty Grievances Procedures not Concerning Questions of Tenure, Dismissal, or Constitutional Rights).

If the faculty member wishes to contest the composition of the Professional Development Review committee due to specific conflict of interest with one or more of the proposed committee members, an appeal may be made to the Dean of Faculties and Associate Provost. After consultation with the faculty member, department head/director/supervisor, and the dean, the decision of the Dean of Faculties and Associate Provost on the committee composition is final (section 6, University SAP 12.06.99.M0.01).

If the faculty member wishes to contest the Professional Development Review committee's finding of substantial or chronic deficiencies, the faculty member may appeal the finding to the dean, whose decision on such an appeal is final (section 6, University SAP 12.06.99.M0.01).

If the faculty member, department head/director/supervisor, and review committee fail to agree on a Professional Development Plan acceptable to the dean, the plan will be determined through mediation directed by the Dean of Faculties and Associate Provost (section 6, University SAP 12.06.99.M0.01).

8.7 Voluntary Post-Tenure Review

A tenured faculty member desirous of a voluntary Post-Tenure Review may seek the counsel of peers, through a Periodic Peer Review or a Professional Development Review, by making a request to the department head, director, or supervisor (section 6, University SAP 12.06.99.M0.01).
9. Granting Faculty Emeritus Status

_University Rule 31.08.01.M2_ states the following: Every individual who, at the time of separation holds a tenured appointment at Texas A&M University and has served the University at least 10 years, must be considered for emeritus status unless the faculty member requests in writing that he/she not be so considered. Non-tenured faculty, or those who have served less than 10 years, may also be considered.

For faculty without tenure or who have served the University for fewer than 10 years, see _Institutional Rule 31.08.01_, which indicates the process for this situation.

See the Dean of Faculties website for [procedures and forms](#) for nominating a faculty member for emeritus status.

Units should work with their faculty to identify the criteria for granting faculty emeritus status.
